About NAOMI PAPER CO.

Hand lettered cards & gifts to help you share the beauty of God's Word.

Our work is known for its use of scripture, vibrant colors, encouraging messages, and the variety of hand lettering styles used to best suit the meaning of the verse or sentiment.

Each of our product designs are drawn by hand by owner & creator, Naomi, and meticulously digitized to retain their handmade look. The time and care that goes into designing each piece makes our cards & gifts inherently thoughtful and easily giftable!

About NAOMI

I'm proud to call Milwaukee, WI home and to run Naomi Paper Co. from my home studio there! I squeeze in design time between naps, bedtime, and a few hours a week when people can watch our two toddler boys.

When I was first starting to hand letter, I found that the more I was lettering, the more I was opening my Bible in search of verses to design. It was through this back and forth way of lettering & reading that God really drew me to Himself, grew my faith, and showed me the beauty of His Word.

Much of my work is an outflow from that personal time in my Bible each day, using verses that strike me as I read and are typically less commonly known.

Using my skills as a graphic designer, I learned how to digitize my work and began selling art prints for people to hang in their homes (to hopefully replace their cheesy wooden "gather" and "blessed" signs) and Naomi Paper Co. was born!

While our products, team, and subject matter have grown over the years, we remain committed to creating work that is rooted in Biblical truth and is undeniably beautiful.

Owner & Creator,

Naomi Dable

Cursive™ FOR KIDS

Cursive for Kids

CFK-01

\$10 EACH | MIN 3

Cursive writing is at the heart of each of our products, but sadly it has become a skill that many schools are no longer teaching!

Cursive for Kids is an interactive memory game designed to help introduce kids to cursive handwriting and keep them practicing all year long!

HOW TO PLAY:

Together students, or children + parents, take turns trying to find matches between the cursive form of a letter with the printed form. Every time a cursive letter is flipped over for the first time, kids can trace over it with the dry erase marker to practice writing and better remember where that card is!
